

DesignPoint is a professional engineering and surveying firm specializing in municipal/civil projects including infrastructure master planning, land development, municipal infrastructure, hydrologic and hydraulic modelling, flood studies, transportation design, structural design, geotechnical engineering and construction materials testing, environmental engineering, as well as legal and topographical surveys, as well as specialized surveying.

DesignPoint is looking for a **Senior Civil Engineer** to work in our Bridgewater office. The successful candidate will have the opportunity to work on a wide variety of different projects, using state of the art equipment and software, and to work closely with the principals and senior staff at the firm.

Key responsibilities include:

- Managing projects and staff;
- Working with the team to prepare land development and municipal design drawings in accordance with the guidelines for the project;
- Preparation of design calculations, modelling, and other project analysis;
- Participate in the development of project cost estimates, statement of quantities, and budget and proposal estimates;
- Preparation of design and other project reports and correspondence;
- Preparation of project related construction tender/contract documents;
- Quality control of design drawings and other project information; and
- Participate in business development and associated social events.

Key requirements include:

- University graduate with a degree in civil engineering;
- 10+ years as a P.Eng. with relevant experience in engineering design, in the field of municipal infrastructure;
- Eligible for registration as a professional engineer with Engineers NS;
- Strong working knowledge of Autodesk's Civil 3D or Infrastructure Design, HydroCad, WaterCad, and other engineering software;
- Ability to self-initiate and problem solve;
- Attention to detail;
- Strong written and oral communication (English) skills;
- Ability to work in a team environment; and
- Valid driver's license.

Key Benefits:

- Close working relationship with principals of the firm;
- Respectful and collaborative work environment;
- Ability to grow and develop with a small local firm;
- Career and personal development opportunities; and
- Competitive benefits and remuneration packages.
