

DesignPoint is a professional engineering and surveying firm specializing in municipal/civil projects including infrastructure master planning, land development, municipal infrastructure, hydrologic and hydraulic modelling, flood studies, transportation design, geotechnical investigations, materials testing, environmental engineering, legal and topographical surveys, as well as specialized surveying.

New employees will join our collaborative team and have access to, and the support of, senior staff to bring projects to completion.

DesignPoint is looking for a **Geotechnical & Materials Technician** to work in our Bedford office. The successful candidate will have the opportunity to work on a wide variety of different projects, using state of the art equipment and software, and to work closely with the principals and senior staff of the firm.

Key responsibilities include:

- Performing geotechnical field investigations;
- Concrete testing;
- Soils compaction testing;
- Asphalt inspection and testing;
- Construction quality monitoring;
- Other general field related duties.

Key requirements include:

- A minimum of 1+ years' related experience is an asset;
- Ability to self-initiate and problem solve;
- Attention to detail;
- Strong written and oral communication (English) skills;
- Ability to work in a team environment;
- Valid driver's license and access to a vehicle;
- CCIL concrete field and or lab certification would be considered an asset but not a requirement;
- Civil Engineering Technology diploma from an accredited post-secondary institution would be considered an asset.

Key Benefits:

- Close working relationship with principals of the firm;
- Respectful and collaborative work environment;
- Ability to grow and develop with a small local firm;
- Career and personal development opportunities;
- Competitive benefits and remuneration packages.
