

DesignPoint is a professional engineering and surveying firm specializing in municipal/civil projects including infrastructure master planning, land development, municipal infrastructure, hydrologic and hydraulic modelling, flood studies, transportation design, structural design, geotechnical engineering and construction materials testing, environmental engineering, as well as legal and topographical surveys, as well as specialized surveying.

DesignPoint is looking for an **Intermediate/Senior Civil Engineering Technologist** to work in our Bedford office. The successful candidate will have the opportunity to work on a wide variety of different projects, using state of the art equipment and software, and to work closely with the principals and senior staff of the firm.

Key responsibilities include:

- Working with the team to prepare land development and municipal design drawings in accordance with the guidelines for the project;
- Preparation of conceptual and detailed grading, servicing and geometric road designs using Civil 3D;
- Preparation of legal and topographical survey plans;
- Importing/exporting/processing of field collected survey data;
- Participate in the development of project cost estimates, statement of quantities, and budget and proposal estimates;
- Field supervision of construction activity;
- Quality control of design drawings and other project information;
- Coordinating project drawings and documents with project managers and other technical/project staff; and
- Preparation of project related construction tender/contract documents.

Key requirements include:

- Civil Engineering Technology diploma from an accredited post-secondary institution;
- 5+ years of relevant experience in civil engineering design;
- Eligible for registration with TechNova;
- Proficient use of Autodesk's Civil 3D or Infrastructure Design and other engineering software;
- Ability to self-initiate and problem solve;
- Attention to detail;
- Strong written and oral communication (English) skills;
- Ability to work in a team environment;
- Valid driver's license.

Key Benefits:

- Close working relationship with principals of the firm;
- Respectful and collaborative work environment;
- Ability to grow and develop with a small local firm;
- Career and personal development opportunities;
- Competitive benefits and remuneration packages.
